
	American Association for Laboratory Accreditation	
	I106 – Available Proficiency Testing Programs	Document Revised: November 6, 2013
		Page 1 of 23

This list is by no means comprehensive, but merely includes contact information for proficiency testing programs of which A2LA is aware. This list is divided into those programs that are currently A2LA-accredited and those that are not A2LA-accredited. For those programs that are accredited by A2LA, please refer to their detailed Scope of Accreditation, located on the A2LA Website. We also encourage you to check the websites of our Mutual Recognition Agreement Partners for PT Providers accredited by them.

A2LA recommends that, whenever possible, A2LA-accredited testing and calibration laboratories use accredited PT Providers to meet the A2LA requirements for participation in proficiency testing. However, we recognize that accredited PT Providers may not be available for all technical disciplines, or that specific accreditation programs may mandate participation in other comparisons. Therefore, if there are no accredited alternatives available and if the samples offered by the non-accredited programs below are relevant to the work your laboratory performs, we recommend that you contact them to discuss enrollment options.

Participation in the programs noted with ** is required by specific A2LA programs of accreditation.

A2LA ACCREDITED PROFICIENCY TESTING PROGRAMS (Please refer to Scopes of Accreditation on A2LA website for more details.)	
Program/Contact	Types of Samples Offered
ACIL Corporation for EMC Proficiency Testing Inc. [ACE-PT Inc.] Harry H.
