GCC Standardization Organization

Quality Policy

The GCC Standardization Organization (GSO) is a regional standardization body that aims to unify the various standardization activities in the GSO Member States and build an integrated GCC standardization system. GSO confirms its commitment to implementing a Quality Management System in accordance with ISO 9001:2015 requirements and satisfying applicable requirements.

In order to achieve its vision of being **"the premier enabler for building a competitive and sustainable GCC economy,"** GSO will focus on customers and beneficiaries, meeting their needs and expectations and enhancing their experience. This will lead to continual improvement in the processes, services, and products provided by GSO.

GSO also states that the Quality Policy will be one of the basic frameworks for defining the periodic quality objectives within the strategic pillars of the Strategic Plan (2026–2030), which are:

1- Enhancing Operational Efficiency

Achieving a distinguished, more effective, and agile operating model.

2- Promoting Economic Integration Among Member States

Strengthening partnerships among national standardization bodies in Member States to enhance the safety and quality of products and services and improve the quality of life.

3- Empowering GCC Industries

Developing technical regulations and standards that elevate the regional and global competitiveness of GCC industries and support mutual recognition programs.

To this end, the Quality Management System will be reviewed periodically to ensure its continuing suitability, effectiveness, and conformity with applicable requirements.

GSO President

H.E. Eng. Jabor Mohamad Aljabor Al-Naimi
